

Fair Dinkum Aussie

Can we do this?

The Government

Convince the government to support the need for a National Identity based on the beliefs, values and guidelines of the well documented "Fair Dinkum Aussie Spirit".

If Yes ...then convince both sides of Government and the Senate to utilise all their resources to make this a National Program commencing with themselves basing all their decision making and in house behaviour also on these FDAS values.

Education

Commence a National Education Program in Day Care Centres, Infant, Primary & Secondary Schools to teach all children what it means to be an "aussie" and have fair dinkum aussie spirit.

This fits perfectly inside the PD/H /PE Syllabus from K -10 and can easily be adapted to the curriculum of all other subjects.

But when teaching these aspects in the curriculum always refer back to how this what a fair dinkum aussie does.

Eg If you find a wallethand it back...be honest ...have empathy

That is what a fair dinkum aussie does!

Eliminate Childhood Poverty

Identify the Gross Annual Income for a family to be under the poverty line eg \$20,000 PA and assist all those below it by also calculating the cost for a child to have the normal benefits and activities inside our school system which is somewhere between \$700 - \$1100 PA. According to the major Charity Associations there are around 1.2 million children growing up below the poverty line thus requiring an initial annual grant of around \$700 million (\$100 per tax payer PA) to be paid direct to schools to support these children directly from the extra school funds. The families receive no money direct but present invoices approved by the school as necessary expenses while the school pays for excursions, uniforms, sporting trips, camps, special interest lessons etc; Now that is what we call fair dinkum!!

Promote the 1st ever say "g'day" day

On the 1st Sunday of December each year from 2015 encourage all people to go for a swim, have a barbie, invite neighbours over, clean up your local area, wear green & gold, play backyard cricket and be that little more aussie friendly each and every day.....Making every day a fair dinkum aussie g'day day!

Introduce ..."It's just as Easy mate!"

Just as easy to say "no"

Just as easy to put a paper in the bin

Just as easy to help someone in need

Just as easy to walk away... the list is endless!

Often it's just as easy -if not easier - to do the right thing

as opposed to doing the wrong thing! Putting hind sight into your daily life, decisions and actions.

Get Active Australia... Your Body Needs You

Teach all people what it means to have an "active" aussie lifestyle by participating at least 3 days per week in an enjoyable aerobic activity for 12 -20 minutes with their pulse in excess of 120 beats per minute. Combine this with stretching and light resistance exercise along with sensible daily eating & drinking habits.

Get fit and stay fit... now that is being a fair dinkum aussie!
